

Riri Sustainability Products

Product & Finishing	Simmetrica – PO	Available Executions	GE, CD, CK	Available Dimensions	4 - 6 mm
--------------------------------	--------------------	-----------------------------	---------------	-----------------------------	----------

For any further information, please ask to our sales representatives.

What makes it Sustainable:

Tape	Recycled 100%	Recycled polyester reduces emissions by 32% compared to virgin polyester.
Components	Recycled Brass	Riri is committed to buying brass with a <u>percentage of recycled material that is at least 50%</u> .
Surface treatments	Reduced water & energy consumption	The PO Surface Finishing (PO stands for Polished) is manufactured <u>without any galvanic treatment.</u>
Certifications	Product certified	Oekotex Standard 100 – Product Class I is an international accreditation of a <u>responsible chemical management.</u>
